

## **Thornbury U3A Bridge Groups**

### **Military Bridge movement information for 15 teams**

#### **American Whist Movement**

There are 15 teams of 4 players. They are separated into NS and EW pairs; they do not play each other. The NS pairs stay on their 'home' table throughout the play and the EW pairs move around the room. This movement requires 30 boards to be in use.

East-West pairs will need to move up 6 tables (this is the same as down 9 tables) from their home table to start the event e.g. EW pair 1 starts at Table 7 (this is 'up 6 [1+6]' or down 9 [1 through 15-7]), and EW pair 10 start at table 1. The starting positions for each pair are shown on the movement diagram below. Boards 1 and 2 start on Table 1, boards 3 and 4 start on Table 2 etc, all the way to boards 29 and 30 starting on Table 15.

At the end of each 2-board round, the NS pairs stay where they are and the EW pairs move down two tables e.g. down from table 6 to table 4, and the boards they have just played move down one table e.g. down from table 6 to table 5. There is one exception arising after round 3, which is that the EW pairs and boards move twice the usual amount (pairs down 4 tables and boards down 2 tables). If this did not happen, the NS and EW pairs on the same team would be playing each other. This is called a skip movement.

It is possible to play 12 or 14 rounds of 2 boards with this movement. If 12 boards are played, then each pair will only play 12 of the 14 opponents. In this case, you simply stop the event after 12 rounds. The primary disadvantage is that teams do not play against all other teams, which dilutes the robustness of the results a little.

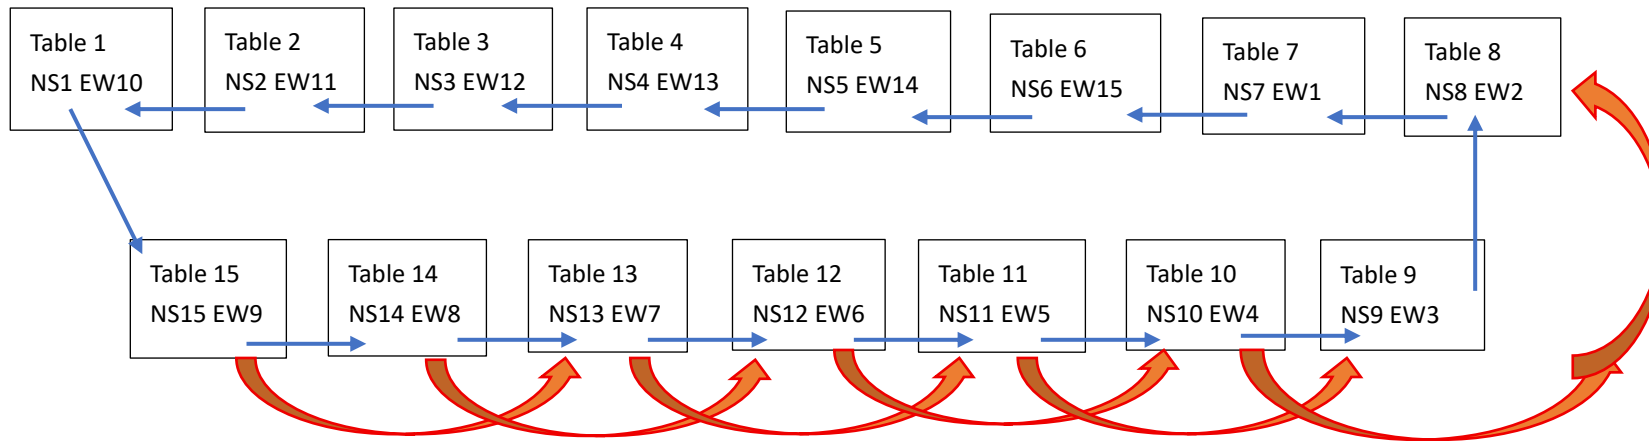

If 14 rounds are played, every team will play all 14 other teams. As a team movement, if NS pair 1 play boards 11 and 12 against EW pair 10, then NS pair 10 will play the same boards 11 and 12 against EW pair 1. This approach operates throughout the whole movement.

The pages below show a diagrammatic representation of the movement and all 15 movement cards; one for each table. As mentioned before, if 12 rather than 14 rounds are played, simply stop after 12 rounds and don't play rounds 13 and 14.

This is followed by suggested text of what the Technical Director can say before play starts, and the round-by-round listing of who is where and what boards they are playing.

### 15 tables American Whist movement – 14 rounds 28 boards (30 boards needed)

Starting locations shown for all NS and EW pairs

→ Blue arrows represent the movement of boards down one table at the end of each round -  
except after round 3, when boards move down two tables

Red curved arrows show movement of some EW pairs down two tables at the end of each  
round – **not all shown** – except for after round 3 when the move is down four tables.

Military Bridge event - suggested text of what the Technical Director might say in advance

To start with, teams will be numbered 1 to 15 and should sit at their numbered table.

The movement we are using is called an American Whist movement. It is designed so that a NS pair from team A plays a set of boards against the EW pair of team B and, later in the session, the EW pair from team A plays the same set of boards against the NS pair from team B. This works throughout the movement for all pairings thus allowing a direct comparison of team scores.

Either:

- Each team will play 2-board matches against all of the other 14 teams in an event lasting 28 boards i.e. there are fourteen 2-board rounds – 7 rounds before lunch and 7 after lunch; or
- Each team will play 2-board matches against 12 of the other 14 teams in an event lasting 24 boards i.e. there are twelve 2-board rounds – 6 rounds before lunch and 6 after lunch.

The NS pairs will stay in the same seats throughout the play, while the EW members of the team will do a double circuit of the room. They will start 6 tables up from their home location e.g. EW pair 1 will start on the table hosted by NS pair 7 and EW pair 10 will start on the table hosted by NS pair 1 (count from 10 up 6 i.e. 11-12-13-14-15-1) (imagine the numbering of the tables mean they form a circle with 15 and 1 adjacent to each other).

At the end of each 2-board round, **the EW pairs will move down 2 tables** e.g. if EW are on table 7 they move down to table 5, if EW are on table 2 they move down to table 15. If you are following me, you will realise that, after three rounds, each EW pair would end back with their team-mates, so at that point (the end of round 3) they need to do a double skip and move back four tables instead of two. **The boards normally move down 1 table**, but after round 3, they need to move down 2 tables so that you don't play the same cards twice!

We are running to a timetable of course. We plan to run the morning play session from 10:30, allowing 15 minutes for each two board round – that is 7 minutes per board and 1 minute to move! Slow play at one table can make life difficult for all of the other 14 tables, with knock-on delays from one table to another and players who are not slow can end up being penalised when it's not their fault. So please make every effort to keep to the timetable. I will ask for pairs to move at the allotted time, even if some tables haven't finished. This means that, even allowing for a brief run overtime to finish, a slow table might not play their second board or not be able to finish their second board if they have not got far enough with playing it. I reserve the right to make a judgement on the result should this happen, at my sole discretion. I'm sorry if this sounds harsh, but with so many tables, it's essential we all try to run to time. The afternoon session of 6 rounds will run from 13:30 Please sit down at the right table after lunch at 13:25 to allow for a prompt start.

**Important: if any phone rings during play, the owner's team will lose a flag immediately.**

Each table has a movement card which tells you which pair you should be playing on each round, and which boards you should be using. It is North's job to check this is correct when new players arrive. The movement card also tells EW where to go at the end of the round, and where the boards should move to.
